## Skills

**Language**
- English
- Chinese
- Malay

**Programming**
- Agile/Scrum/Waterfall
- MSSQL (SSMS)
- SAP Scripting
- Jira/Bitbucket
- C#, C++ (Visual Studio)
- Python (VS Code)

**Personal**
- Critical Thinking
- Problem Solving
- Teamwork
- Analysis
- Communication

## Certificates

- CompTIA Network+
- Google Cybersecurity Specialization
- Google IT Automation with Python
- Automation Anywhere Certified Master RPA Professional

## Education

**BCompSc (Software Engineering & Digital System Security)**
University of Wollongong (2019~2021)

**DipIT (Informatics Communication & Technology)**
INTI International University & Colleges (2017~2019)

## Professional Experience

**Professional Development**
**Sep 2023 - Present**
- CompTIA Network+ certification
- Google Cybersecurity certification
- Pursued online courses to broaden my knowledge and skill set, including:
- CS50 Computer Science, culminating in a final project focused on web crawling.
- CS50 Cybersecurity, featuring a final project presentation centered on LockBit ransomware.
- Created and published a series of small game projects on itch.io.

**Aspiro Sdn Bhd | Software Engineer**
**Oct 2021 – Sep 2023**
- Worked on multiple HR/FA .NET projects simultaneously and participated in the whole software development process from design to implementation and delivery.
- Developed new software functionalities, ensuring client's vision and requirements are met.
- Maintained multiple projects facing China and Indonesia clients, addressing any project change requests, improvements as well as any concerns faced.
- Collaborated with peers on improvement of software performance and error monitoring, also expanding upon in-house common library should a good use case presents itself.
- Developed python unit test for in-house OCR product and data extraction tool to properly designate OCR results.

**Digi Telecommunications | Network Implementation Intern**
**Feb 2019 - Apr 2019**
- Attended meetings with department region heads, capturing detailed meeting minutes for accurate record-keeping.
- Served as a liaison for the region head, facilitating communication with external Project Management Consultants (PMCs) regarding project scope and requirements.
- Prepared a site checklist for the iMacro project, designed to assist the region head and PMCs in tracking project progression effectively.
